Serving with the greatest care and love.

Our professional practice model shows how our nurses practice, collaborate, communicate and develop professionally to provide the highest-quality care for our patients.

## LETTER FROM OUR CNO

It is my pleasure to present the OSF HealthCare Saint Francis
Medical Center Nursing Annual Report. This report
demonstrates how our OSF Professional Practice Model,
grounded in the Mission of our Sisters, continues to guide
our practice with patients and families. Through our model's
key components of transformational leadership, structural
empowerment, exemplary professional practice and new
knowledge and innovation, OSF Saint Francis nurses continue
to demonstrate their dedication to the pursuit of excellence,
resulting in our success as a Magnet-designated health care
organization. Each of you has done this while serving our patients
and each other with the greatest care and love.

OSF Saint Francis continues to elevate the nursing profession through transformational leadership at all levels, as well as how interprofessional collaboration and advocacy allow us to continue to move forward in the ever-changing landscape of health care. You all should be proud of how we have worked to create an environment that supports autonomous, evidence-based care. We also showcase how OSF Saint Francis nurses are committed to the population of patients they serve by providing effective and efficient care and services leading to high-quality outcomes grounded in a culture of safety.

This report is testimony to the many ways OSF Saint Francis nurses are empowered to improve the care of patients and the community we serve through the mindful integration of evidence-based practice and research into clinical and operational processes. Patient experience and operational efficiency are at the core of all we do, and our nurses continue to develop and utilize innovative technologies and approaches to improve upon those areas.

It is a great honor to serve as your leader on this journey. I appreciate your hard work and thank you for your commitment to our patients and their families. I am proud and humbled to work alongside such an exceptional team of professionals.

Sincerely, Cynnthk Iroland

Jennifer Croland, DNP

Chief Nursing Officer, Vice President, Patient Care Services OSF HealthCare Saint Francis Medical Center

### A MISSION THAT MAKES A DIFFERENCE

#### **OSF HealthCare Mission**

In the spirit of Christ and the example of Francis of Assisi, the Mission of OSF HealthCare is to serve persons with the greatest care and love in a community that celebrates the Gift of Life.

# **Nursing Vision**

To earn the trust of our patients through exceptional, compassionate care and where nurses are valued, appreciated and have professional agency.

For over 146 years, the Mission of OSF HealthCare has come to life through nursing practice in the communities we serve. Our Philosophy states: The Sisters of The Third Order of St. Francis believe that led by the Spirit of the Gospels and the example of St. Francis, the special purpose of our existence as an organization is to provide for the total well-being of those we serve.

Our Foundress, Mother M. Frances Krasse, said,

"Nurse the sick with the greatest care and love; then will God's blessing be with you."

Our dedicated nurses at OSF Saint Francis continue to live out these words, which crafted our Mission in service to the poor, the sick and the vulnerable in our midst.

## BY THE NUMBERS

In 2023, OSF Saint Francis Mission Partners managed the following:

211,859

**Patients** 

181,657

Inpatient Days

644,303

**Outpatient Visits** 

73,499

Emergency
Department Visits

30,178

Hospital Discharges

48,813

Surgical Procedures

676,351

**Patient Visits** 

1,017,642

Physician office visits

#### New Hire RNs

From January 1 – November 8, 2023, 292 Mission Partners with the RN title were hired. In addition, there were eight individuals hired with RN qualifications who are not working directly as an RN:

- Clinical education scholar (2)
- · Coordinator clinical research RN
- · Coordinator quality and safety RN
- Coordinator transplant (2)
- Crisis nurse
- Neo and perinatal outreach educator

Total number of OSF Saint Francis RNs: 1,700

Average tenure of

OSF Saint Francis RNs in 2023: 8.26 years

### MAGNET DESIGNATION

## Our fifth Magnet designation

The American Nurses Credentialing Center's (AANC) Magnet® designation is the most prestigious credential a health care organization can attain for excellence in nursing and quality patient care. The Magnet® Model is one way health care organizations invest in their nursing workforce and can serve as a blueprint for nursing excellence.

As of October 2023, only 10% of hospitals in the U.S. are designated Magnet. In April 2023, OSF Saint Francis earned its fifth designation as a Magnet facility. Only 7% of Magnet hospitals have recevied their fifth designation.

# Magnet Conference 2023

OSF HealthCare nurses attended the annual AANC National Magnet Conference and AANC Pathway to Excellence Conference in Chicago, gaining insights on ongoing competency and training, standardizing care and processes, and the latest evidence-based tools to support achieving and maintaining Magnet and Pathway to Excellence status.

66

Attending the Magnet Conference was a privilege! I left feeling empowered that OSF Saint Francis is ahead of the curve in almost every aspect of health care. I was able to watch a presentation on ambulatory shared governance and take back nuggets that will enhance our existing HOD Professional Nursing Congress.

Hayley Madigan MSN, RN, NE-BC

66

Magnet is a unique opportunity to be surrounded by thousands of nurses at the top of their practice who are eager to learn and grow. Magnet opened my eyes to the breadth of nursing. Magnet shows what the best of the best are doing in health care and how to incorporate new and innovative ideas in your organization.

Lauren Kramer BSN, RN, CMSRN

# **ACCREDITATIONS**

# Organizational awards and recognitions

OSF Saint Francis RNs are proud of being nationally recognized for excellence, as demonstrated by the following specialty accreditations that were renewed over the past year.

# **NURSING AWARDS**

### Nursing Awards and Recognitions

In recognizing the gifts each nursing Mission Partner brings to this Ministry, we, in turn, hope to elevate and inspire the practice of all nurses as they demonstrate impact on our Mission by providing the greatest care and love.

# **Nursing Excellence Award Nominees**

The nomination process aims to identify those Mission-driven nurses who exemplify our cultural beliefs while addressing our organization's strategic priorities. Mission Partner peers, leaders and providers may nominate these exceptional nurses or groups of nurses.

# "I Am an OSF Nurse" Excellence Award

Each chief nursing officer submits nominee stories through the online nomination system. Each nominee's story has all identifiable criteria removed, including name, title and facility. The anonymous stories are then reviewed and evaluated by the nomination review board, which is comprised of Mission Partner leaders throughout our Ministry. Final award winners are selected with the consensus of all nomination review board members for each category.

## SISTER CANISIA SCHOLARSHIP

The Sister Canisia Gerlach O.S.F Scholarship was established in 2003 in honor of its namesake's longtime devotion to patients and nursing. Sister Canisia served as administrator of OSF Saint Francis from 1960 to 1998. While she spent most of her career in administration, her roots and heart were in nursing. Her work in patient care began in 1940 with Sister Canisia initially serving as a nurse and later as a nurse anesthetist.

The fund provides support for clinical excellence and the advancement of nursing. The specific goals are to strengthen the professional development of nurses, enhance recruitment and retention of nurses and provide patient care of the highest quality. An education scholarship is awarded for the spring and fall semesters. A research scholarship is awarded annually.

### Education scholarships

| Recipient                    | Department               | Degree |

## DAISY AWARDS

The family of Patrick Barnes created the DAISY Award for Extraordinary Nurses in his memory to recognize and thank nurses, the often-unsung heroes, for the gifts they give their patients and families every day.

Nurses at OSF Saint Francis and OSF HealthCare Children's Hospital of Illinois are nominated for the DAISY Award in recognition of their commitment to the highest standards of nursing excellence and for making a significant difference in the lives of the patients and families they serve. OSF Saint Francis and OSF Children's Hospital receive an average of 150 to 200 DAISY nominations each month – one of the highest numbers of nominations in the nation!

#### **DAISY** winners

Here are some of our most recent DAISY winners and quotes from those who nominated them.

Kirstin Osborn, RN October 2022 Oncology Services

66

I am a writer by trade, yet words fail me when I try to express how much I admire, love and respect my breast health navigator, Kirstin Osborn.

I finally understand the term "Godsend." It's someone or something that is sent by God to help you. Kirstin was my Godsend. I told her several times that I was amazed by how well she did her job. Her answer was always the same, "I just love what I do." "It shows," I'd say. "It shows." Ephesians 4:15 talks about "speaking the truth in love." That is the essence of Kirstin Osborn. She always speaks the truth and does it in love.

"

66

My sister, brother-in-law and I brought our sister to the emergency department for what turned out to be a very serious UTI. She has dementia and was very uncomfortable and upset at being there.

Ethan was very respectful of her and very patient even when she pulled out her IV. She was not the easiest patient to handle, but Ethan was very patient and empathetic, even when she fought physically and verbally when he was trying to handle her procedures. He remained cool throughout everything. We appreciate the care that he provided in what was not an easy situation.

Ethan Sperry, RN
November 2022
Clinical Resource Team

"

Rebecca Wisher, RN
December 2022
Labor & Delivery

66

Rebecca was our nurse on the day I delivered our son. We were so heartbroken after we learned we had lost him a few days earlier, and I was dreading the physical and emotional pain of going through labor to deliver a baby that we knew wouldn't be going home with us.

I will always remember and be grateful for the time she took to take beautiful pictures, make a special ornament, get handprints and footprints, and provide compassionate care to me and [my son]. I hope every family in this situation has a nurse like Rebecca to help them through it.

"

66

Courtney is an extremely compassionate nurse who took incredible care of my mother-in-law when she was in the hospital. She ensured that her pain was adequately treated and truly cared for her every need.

Unfortunately, things took a turn for the worse, and my mother-in-law died suddenly and unexpectedly. After my mother-in-law passed away, she spent a great amount of time with my father-in-law while he waited for his kids to arrive at the hospital. OSF HealthCare is lucky to have an amazing nurse like her, who demonstrates empathy, compassion and strength daily while caring for her patients.

Courtney Johnson, RN
January 2023
Surgical Acute

77

Emma Sauder, RN
February 2023
Adult Cardiac ICU

66

My mother was in the ICU following a massive heart attack and the placement of two stents. That night, around 10:30 p.m., she had a vasovagal event. Thankfully, our nurse was in the room with her and called for additional help.

These are the moments where a nurse's care and expertise go beyond caring just for the body and touch a patient's soul. These are the moments that bring a calming trust to the patient and family. Thank you to this amazing, sweet nurse for caring so much.

66

Jessica was my mom's nurse for only about four hours before she was transported to OSF Richard Owens Hospice Home, but the impact Jessica made has resounded with my family since then.

I asked my brothers if there was anything they wanted me to add to this nomination in regard to Jessica. They both came back with the words "so compassionate, genuine and calming." One thing that stood out to all of us was – as we were leaving for hospice home, Jessica said, "I will pray for you and your family." Those words meant the world to us.

Jessica Richards, RN March 2023 Short Stay Unit

"

Abbi-Jo Marcotte, RN
April 2023
Emergency Services

66

My mom was brought to the emergency department by ambulance. Abbi greeted me with a smile, introduced herself and explained to me what they were going to do.

One time, she came in, and I started to tear up. My daughter's fiancé had just passed away suddenly. Abbi was so kind to listen to me, and we chatted for a second. That was all I really needed at that time, and Abbi was there. She was doing her job and did not have to check on me while mom was testing.

Abbi is a fantastic nurse. She was so gentle and kind to mom. I cannot thank Abbi enough for all the kindness she has shown us.

"

We received news that no parent ever wants to hear. There was concern that our son, who is 14, had a lesion in his brain. He was admitted to general pediatrics with so much uncertainty and fear. One nurse in particular made such a scary stay bearable and, dare I even say, pleasant. Her name is Breonna Orrick.

We will never forget that day, as it was one of the scariest days of our lives. However, we will also never forget Bre, who we truly felt was an angel sent from God to help us continue to smile and continue to be strong. Thank you, Bre, from the bottom of our hearts, for your care and compassion! You have made an impact on us that we will take with us always.

Breonna Orrick, RN May 2023 Pediatric Acute

Serena Meiss, RN

June 2023

Adult Cardiac ICU

Serena Meiss saved my grandpa's life. He was in for an aortic aneurysm, and his odds for surgery didn't look good. He was intubated and unable to speak, so we had to make the choice to continue with the surgery or not. We knew that the road to recovery would be a hard one, and we made the choice to decline the surgery. As we made this heartbreaking decision, Serena told us she could lower Papa's sedation so that we could speak to him.

Because of her consideration and ability to put herself in the shoes of others, my grandpa is alive today. Not only that but just four months post-surgery, he's gone from bed-restricted in a nursing home to walking around independently back in his own home.

"

Mom was struggling with recovering from a c-section, along with baby being in the NICU. Sunday morning, we had Bailee as our nurse, and we were instantly blown away by her kindness, honesty and empathy toward Mom.

She answered hundreds of questions about mom and baby, was personable, and was attentive, ensuring we stayed on top of mom's blood pressure. She comforted and eased family members throughout the day. Bailee was a great nurse, and we are so grateful for the care she provided for our family. It was relieving to know Mom and baby were in such good hands.

My wife had been rushed to OSF Saint Francis for a delayed post-partum hemorrhage. She had an emergency procedure and was admitted. Bre was waiting for us in the room. She was so kind to my wife and ensured she had everything she needed.

My wife and I appreciate all the compassion you showed. You put us at ease in a difficult situation and got her on the road to recovery. You are an amazing nurse with a great heart! Your kindness and patience were a blessing after all the chaos we experienced. Thank you so much for everything!

## DEDICATED EDUCATION UNITS

The Dedicated Education Unit (DEU) uses nurses as clinical instructors to prepare themselves and others for expanded roles and career development using existing resources. The instructors work closely with the student nurses on each shift as part of their normal patient load.

The structure of a DEU is flexible because it must be able to meet the needs of specific clinical environments and work within available resources. There are six guiding principles of DEUs that, when taken in totality, will generate a sense of belonging in clinical environments for students, clinical staff and academics:

- 1. Clinicians and academics partner together and accept each other's strengths clinicians are expert practitioners, and academics are expert educators.
- 2. Relationships between clinicians and academics are built on mutual trust, respect and open communication.
- 3. Through close relationships, clinicians and academics develop a robust, collaborative, collegial partnership between OSF HealthCare and college.
- 4. Academics, clinicians and students partner for collaborative learning and teaching.
- 5. All individuals involved in the DEU are prepared and understand their roles, responsibilities and activities.
- 6. There is ongoing academic and clinical practice development of the academic and clinical staff and the students.

### Quotes

66

It helped me become more confident in my skills and patient interaction. The DEU was a huge impact on why I am working at OSF Saint Francis.

S2 Saint Francis Medical Center College of Nursing DEU Student 66

Being able to follow a nurse for a full 12-hour shift really brings out the beauty of the nursing profession. I would not be where I am without the DEU.

S2 Saint Francis Medical Center College of Nursing DEU Student

"

•

Being a DEU instructor gives me an opportunity to advance my own knowledge and skills as a nurse and a teacher and keeps me up to date on procedure updates. It helps the students learn time management and prioritization and gives them more responsibilities and opportunities than they would have in a traditional clinical setting.

Lauren, 4Surg DEU Instructor

# **MEASURING OUR SUCCESS**

### What do our patients think of OSF Saint Francis nurses?

- RNs treat patients with courtesy and respect
- RNs listen carefully

#### **EDCAHPS RNs**

(Emergency Department)

- RNs treat patients with courtesy and respect
- RNs listen carefully

# What do our patients say when they return surveys?

The team responsible for the testing, from the nurses to the doctor, was top-notch! They were so kind and spoke to my son and kept him informed the entire time. They made our first experience at OSF worth the drive. They were all so kind and considerate.

During my hospital stay, I had my third child. It was my first birth experience at OSF, and the nurses were wonderful. They were attentive, friendly and knowledgeable. I would recommend OSF to any pregnant mom.

"

I had a serious back operation (my sixth). Went home, and a couple of days later, I fell and went by ambulance to the emergency department. Was admitted for a week and had wonderful care. The nursing staff was top-notch! Follow-up with home therapy. Great assistance and care.

"

# RESEARCH, PUBLICATIONS AND PRESENTATIONS

#### Research

Contextualizing Nursing Needs for Development of Retention-Support App (started 8/29/23) ongoing – site PI: Karyn Cordes MSN, RN, CCRN.

Development and Pilot Testing of Virtual Standardized Patients for Triage Training (started 8/29/23) ongoing, site PI: Ann Stein BSN, RN.

Impact of virtual reality simulation for teaching high-risk, emergent situations in women's health (started 4/6/23) ongoing site PIs: Sarah Barnes BSN, RN; Taylor Lind BSN, RN; Amy Jo Williamson DNP, RN; Marie Lehman DNP, RN, NEA-BC; and Brooke Kaiser MSN, RN.

### Research day presentations

Prenatal Assessment using standardized patients in baccalaureate nursing education. Jessica Verplaetse, RN, PhD; and Sheri Streitmatter, RN, MSN.

Implementation of an Interactive Training Experience for Novice Nurses One Month after Hire Date. Jennifer Van Autreve, DNP, RN; Desi Walker, MSN, RN, RNC-MNN; and Robyn Goetze Bradley, MSN, RN.

Research residency. Rebecca Parizek, PhD, RN, CNL; and Christina Garcia, PhD, RN, NE-BC.

### Doctor of nursing practice projects

Implementation of a Micro-Debriefing Bundle on a General Pediatric Unit – Brittany Williams.

Implementation of Updated Screening Tool to Identify Human Trafficking Victims within the Emergency Department – Laura Flinn.

Virtual Discharge to Enhance Discharge Timeliness and Improve Hospital Throughput – Andrea Harlan.

#### **Presentations**

Implementation and impact of an Oncology Nurse Navigator Led Survivorship Program in a Hospital Outpatient Setting poster presentation by Catherine Bailey BSN, RN. (AONN Conference – November 2023)

Breaking down barriers breakout session presentation by Laura Frederick, BSN, RN, CMGT-BC, PMGT-BC. (ASPMN Conference – September 2023)

*Understanding Gestational Surrogacy in Illinois* presentation by Cheyanne Hainline BSN, RN, CLS. (AWHONN IL Conference – October 2023)

GI Pearls: A Panel Presentation with Kelly Johnson, BSN, RN, CGRN; and Breanna Dugan, BSN, RN. (2023 Gastroenterology Nursing & Surgical Tech Conference – November 2023)

Coaching Nursing Students virtual podium presentation by CJ Wright-Boon, MSN, RN. (Health Professions Educators Conference, sponsored by Magna Publications – August 2023)

# **OSF STRATEGIC PLAN**

### FY23 Strategy Summary

- Culture of clinical excellence
- Delivery system redesign
- Partnerships
- Community engagement
- OSF Way Scheduling transformation
- Genomics and personalized medicine
- · Health equity and social drivers of health
- Digitally enhanced new models of care

- Diversify revenue streams
- Radical efficiency
- Philanthropy
- Expand value-based relationships
- Talent-centric hiring practices
- Flexible work environments
- Progressive benefits with flexibility
- Robust organizational development
- OSF Way Compassion
- Diversity and inclusion
- Transformation of learning

#### PROFESSIONAL GOVERNANCE

#### Shared Governance at OSF Saint Francis

At OSF Saint Francis, all nursing Mission Partners are a part of professional governance. Professional governance is the structure that allows nurses to regulate and guide their practice. This structure aims to enhance patient safety and outcomes while fostering a culture of professionalism and ongoing improvement in nursing practice.

We are proud to have department-level unit councils run by frontline nurses. The chairs of these unit councils sit on the OSF Saint Francis Professional Nursing Congress (PNC) and participate in decision-making, collaboration with the CNO, nursing peer review, employee engagement and retention and staffing advisory.

OSF Saint Francis also has frontline nursing representatives participating in OSF HealthCare Clinical Practice Councils. This professional governance structure allows decision-making and communication to flow from the frontline Mission Partners to the OSF Ministry and back.

# **NURSE MIXERS**

Our nursing staff periodically hosts fun, free mixers designed to offer nurses of any age or education level a chance to explore nursing opportunities at OSF HealthCare. The mixer allows attendees to network and have casual conversations with experienced RNs while enjoying refreshments.

# **CARPE NOCTEM**

Formed in 2015, the Carpe Noctem Committee is a group of individuals who have come together to ensure night shift Mission Partners have support through education, rounding and fun activities!

# Lag night

During the night of daylight savings, our committee pairs with the administration to serve a meal to Mission Partners working the extra hour on the night shift. Lag night 2023 saw more than 500 Mission Partners served by our executive team and nursing leadership in the first hour.

#### INNOVATION

#### Virtual Nursing

OSF Saint Francis has shifted the admission and discharge process for all patients, including patients arriving and discharging from home, assisted living or a skilled nursing facility, from the bedside nurse to a virtual nurse through this innovative technology. This initiative provides the bedside nurse with more opportunities to continue providing direct care and more time with other patients to help improve the delivery of care.

With the virtual nurse completing the admission and discharge with the patient, there are no interruptions or distractions to the virtual nurse's time with the patient, enhancing the experience and providing the patient with more opportunities for feedback and questions.

After the rollout of the Virtual Nursing project for discharging patients, there has been a sustained significant increase in four key areas of Patient Satisfaction:

Staff discussed help available to you when you left

You received information about the symptoms or problems to watch for

You had a good understanding of the purpose of your medications You had a good understanding of managing your health

## Reduced Weekends by Seniority

Members of the Professional Nursing Congress brought their ideas to our CNO, Jennifer Croland, to lessen nurses' weekend commitment to help with retention and recruitment. Other nurses across the OSF Ministry gave similar suggestions to their respective CNOs. These nurse executives, working with human resources, crafted a proposal that benefitted new and current Mission Partners. The model now in effect is as follows:

- Zero to four years of service: four weekend shifts in a six-week plotter
- Four to 10 years of service: three weekend shifts in a six-week plotter
- 10 to 15 years of service: two weekend shifts in a six-week plotter
- 15+ years of service: no weekend shift commitment

## OSF OnCall Digital Hospital

OSF OnCall Digital Hospital started enrolling patients in August 2022. This innovative program combines virtual and in-home care for acutely ill patients requiring hospitalization, assisting patients in their homes and leveraging resources to help offset hospital census and contribute to throughput for more acutely ill patients.

In the first year, OSF OnCall Digital Hospital cared for 200 patients without hospital-acquired conditions or infections. It demonstrated a reduced length of stay of around three days for acutely ill hospitalized patients, almost two days lower than an average hospital stay.

#### Celebrating innovators across the Ministry

When Ann Herrmann and Sam Monk took on roles as clinical education scholars at OSF Children's Hospital, they were tasked with developing innovative educational content for frontline Mission Partners. They saw an opportunity in Elemeno Health, a training and communication application.

"We were using Elemeno, brought in by OSF Innovation, as an online library of information for our caregivers to easily access, such as performance standards and guidelines," said Ann. "But we quickly realized it could be so much more than that."

Traditionally, orientation and ongoing education have been completed using binders of information and in-seat learning. Frontline caregivers also go directly to Ann and Sam to ask questions and find resources, but the clinical education scholars are not always available.

"We saw the app as an opportunity to transition our education model to a format for today's generation," said Sam. "This platform can help us answer questions, disseminate education and orientation and provide real-time information – all in one place."

Elemeno is available on the clinical smartphones Mission Partners use while on patient floors. At the tap of the screen, they can access a variety of content on the platform, including evidence-based best practices, bite-sized video guides for how to do different procedures, pre-learning for in-seat classes and interactive activities. There's also an accountability function built into the app.

"We think this is going to be great for Mission Partners because they won't have to click through an entire policy, procedure or module to find what they need," said Sam. "Using this platform can also increase work-life balance as learners won't be required to be in so many in-seat classes."

# **CAREER LADDERS**

OSF Advance – Nursing Career Ladders Program replaces the previous opt-in program. The program invests in direct caregiver RNs and LPNs by recognizing their contributions to their nursing practice and OSF HealthCare.

This program aims to retain, support and reward individual academic progression and professional development and includes the full scope of professional nursing practice in the four domains of Nurse as Leader, Nurse as Practitioner, Nurse as Transferor of Knowledge and Nurse as Scientist.

#### SERVING THE COMMUNITY

Serving our communities is crucial for building unity and solidarity, addressing local needs and positively impacting people's lives. Engaging the community through projects and outreach fosters empathy, promotes personal growth and strengthens social bonds.

#### Community Baby Shower

The Community Baby Shower, hosted by OSF Children's Hospital and the University of Illinois College of Medicine Peoria, is a free event that serves as a one-stop shop for information, education and resources.

## Peanut Butter and Jelly Food Drive

OSF nurses have collected hundreds of peanut butter and jelly donations for Sophia's Kitchen. Volunteers make hundreds of peanut butter and jelly sandwiches daily.

## Garden of Hope

Located at 1414 W. Antoinette St., adjacent to St. Ann Catholic Church, the Garden of Hope provides a safe place for family, friends and neighbors to gather and support each other. The garden project aims to inspire the community and connect volunteers and our Mission Partners to promote healthy lifestyles. The project aligns with the church's role in ministering to the whole person – body, mind and spirit and fulfills several components of the Faith Community Nursing Program Model for Healthy Living.

#### BUILDING FOR THE FUTURE

#### **OSF HealthCare Cancer Institute**

With the opening of the OSF Cancer Institute in early 2024, leaders, nurses and staff have joined to develop world-class patient care, patient workflows, Mission Partner education and training, and all components needed to transition to the new facility.

Some highlights of services include:

- · More comfort and privacy within the new Infusion Center
- A single point of intake with referrals to services within the OSF Cancer Institute coordinated by a nurse
- Stacked testing for newly diagnosed patients where all imaging needed for proper staging is completed in one day
- Nurse navigators provide education, advocacy, reduce barriers and coordinate a patient's care
- · Multidisciplinary approach to care with state-of-the-art tumor board conferences and clinics
- Support from advanced practice providers for suspicious lesions, newly diagnosed patients and patients at high risk for developing cancer
- · Oncology-specific clinics such as palliative care, cardio-oncology and intimacy concerns
- Nurse-led Survivorship Program-START (Surviving, Thriving And Recovering Together)
- Low-Dose CT program, as well as other preventive and screening programs
- Teaching kitchen
- · Rehabilitation and massage therapy
- Surgical oncology
- · Radiation therapy, including proton therapy
- Supportive services: counseling, financial navigation and social work, nutrition support from oncology-specific dietitians

The OSF Cancer Institute will shine a new light of hope on cancer patients and their loved ones by being a destination center providing comprehensive oncology care to Central Illinois and surrounding communities and regions.
