IV. UPDATE FROM IDPH/STATE MEETING

A. UPDATES FROM IDPH

1. Everybody knows FY23 we had the radiological surge annex that was due. That draft is up online Please review on the RHCC Website.
2. Radiological Surge Annex for FY23 and Chemical FY24. Planning to manage our own regional exercises. Contacted HSS and found that we can reduce the overall rates, but more taxing on our end leading up to the exercise. Will explore possibilities and provide an update in the near future.

B. UPDATES FROM MIKE EPPING (REMSC)

1. No updates

C. UPDATES FROM MATT RINGENBERG (ERC)

1. Currently going through grant application. So we had meetings with our CRI health departments across the state, which five of which are in our region, but a lot of those things kind of carry over in other deliverables. There is a lot of the discussion regarding regional participation. So they're looking at drafting some of their deliverables to include for the chemical burn, for the chemical surge next year.
2. Defining what the local health department role is and those responses and what that looks like. If there was a CHEMPACK response, I think there was a lot of discussion around the CHEMPACK along with potentially potassium iodine

D. UPDATES IDPH COMMUNICATIONS

1. Communications Specialist Chris Cochran is providing assistance when it comes to questions with the IDPH Hybrid Template. Reach out to
