

## SMO Medications 2024

<b><u>Adenosine</u></b>	<b><u>Albuterol</u></b>	<b><u>Amiodarone</u></b>
Tachycardia	Anaphylaxis and Allergic Reactions Bronchospasm/Asthma/COPD Crush Syndrome & Suspension Trauma Extremely Agitated Patient/ Hyperactive Delerium	Cardiac Arrest Post Resuscitation (ROSC) Tachycardia Ventricular Fibrillation/ Ventricular Tachycardia
<b><u>Aspirin</u></b>	<b><u>Atropine</u></b>	<b><u>Calcium Gluconate</u></b>
Chest Pain of Suspected Cardiac Origin/STEMI	H&T – Organophosphate OD Bradycardia Sedation for Airway Management/DSI Toxic Exposure	Asystole/PEA H&T – Hyperkalemia Crush Syndrome & Suspension Trauma Extremely Agitated Patient/ Hyperactive Delerium Toxic Exposure Ventricular Fibrillation/ Ventricular Tachycardia
<b><u>Dextrose 10%</u></b>	<b><u>Diphenhydramine</u></b>	<b><u>Duo-Neb</u></b>
Alcohol/Substance Abuse Altered Mental Status Asystole/PEA Cardiac Arrest Post Resuscitation (ROSC) Diabetic Emergencies Routine Pediatric Care Seizure/Status Epilepticus Stroke Syncope/Near Syncope Ventricular Fibrillation/ Ventricular Tachycardia	Anaphylaxis and Allergic Reactions	Anaphylaxis and Allergic Reactions Bronchospasm/Asthma/COPD CPAP
<b><u>Epi Injector</u></b>	<b><u>Epi 1 mg/1ml</u></b>	<b><u>Epi 1mg/10 ml</u></b>
Anaphylaxis and Allergic Reactions Bronchospasm/Asthma/COPD	Anaphylaxis and Allergic Reactions Asystole/PEA Bronchospasm/Asthma/COPD Neonatal Resuscitation Pediatric Respiratory Distress Ventricular Fibrillation/ Ventricular Tachycardia	Asystole/PEA

## SMO Medications 2024

<b><u>Epinephrine Drip</u></b>	<b><u>Etomidate</u></b>	<b><u>Fentanyl</u></b>
Bites, Stings & Envenomation Cardiogenic Shock/Heart Failure/Pulmonary Edema	Sedation for Airway Management/DSI	Cardia Arrest Post Resuscitation (ROSC) Intranasal Medication Pain Management Tachycardia
<b><u>Glucagon</u></b>	<b><u>Ketamine</u></b>	<b><u>Ketorolac</u></b>
Alcohol/Substance Abuse Altered Mental Status H&T – Beta Blocker OD Diabetic Emergencies Seizure/Status Epilepticus Stroke Syncope/Near Syncope Toxic Exposure	Behavioral Emergencies Sedation for Airway Management/DSI Extremely Agitated Patient/ Hyperactive Delerium Pain Management	Pain Management
<b><u>Lidocaine</u></b>	<b><u>Magnesium Sulfate</u></b>	<b><u>Methylprednisolone</u></b>
Cardiac Arrest Post Resuscitation Sedation for Airway Management/DSI Intraosseous Access Tachycardia Ventricular Fibrillation/ Ventricular Tachycardia	Bronchospasm/Asthma/COPD Pre-eclampsia/Eclampsia Tachycardia Ventricular Fibrillation/ Ventricular Tachycardia	Anaphylaxis and Allergic Reactions Bronchospasm/Asthma/COPD
<b><u>Midazolam</u></b>	<b><u>Morphine</u></b>	<b><u>Naloxone</u></b>
Behavioral Emergencies Bradycardia Cardiac Arrest Post Resuscitation (ROSC) Cardioversion CPAP Sedation for Airway Management/DSI Extremely Agitated Patient/ Hyperactive Delerium Hyperthermia Intranasal Medication Pain Management Pre-Eclampsia/Eclampsia Seizure/Status Epilepticus Stroke Tachycardia Toxic Exposure	Cardiac Arrest Post Resuscitation (ROSC) Intranasal Medication Pain Management Tachycardia	Alcohol/Substance Abuse Altered Mental Status Asystole/PEA H&T – Opiate OD Behavioral Emergencies Intranasal Medication Pain Management Pediatric Respiratory Distress Syncope/Near Syncope Toxic Exposure

## SMO Medications 2024

<b><u>Nitroglycerin</u></b>	<b><u>Nitro-Paste</u></b>	<b><u>Norepinephrine</u></b>
Cardiogenic Shock/Heart Failure/Pulmonary Edema Chest Pain of Suspected Cardiac Origin/STEMI	Cardiogenic Shock/Heart Failure/Pulmonary Edema	Bradycardia Cardiac Arrest Post Resuscitation (ROSC) Sepsis Shock/Traumatic Hemorrhage/Wound Packing
<b><u>Ondansetron</u></b>	<b><u>Oral Glucose</u></b>	<b><u>Racemic Epi</u></b>
Abdominal Pain Pain Management Routine Medical Care Routine Pediatric Care Routine Trauma Care	Alcohol/Substance Abuse Altered Mental Status Diabetic Emergencies Seizure/Status Epilepticus Syncope/Near Syncope Toxic Exposure	Pediatric Respiratory Distress
<b><u>Sodium Bicarbonate</u></b>	<b><u>Succinylcholine</u></b>	<b><u>Tranexamic Acid (TXA)</u></b>
Asystole/PEA H&T – Metabolic Hydrogen Ions H&T – Hyperkalemia H&T – TCA Crush Syndrome & Suspension Trauma Extremely Agitated Patient/ Hyperactive Delirium Toxic Exposure	Sedation for Airway Management/DSI	Childbirth Gynecological Emergencies Rape/Sexual Assault Shock/Traumatic Hemorrhage/Wound Packing
<b><u>Tylenol</u></b>		
Pain Management Routine Medical Care Routine Pediatric Care Seizure/Status Epilepticus
