

# Mission Partner GIVING

ONE TEAM • ONE SPIRIT • ONE MISSION

## WHY I GIVE

### Jackie Miller

MRI Technologist  
OSF HealthCare Heart of Mary Medical Center, Urbana

I have been part of this ministry for 38 years—including the past seven years since we became OSF Heart of Mary Medical Center. Throughout my career in Medical Imaging, specializing in Mammography and MRI, I have seen firsthand the impact that compassionate care and thoughtful investments can have on our patients.

Giving to Mission Partner Giving allows us to enhance the care we provide in meaningful ways. I've witnessed this in my own department—one year, our contributions helped purchase blanket warmers, bringing extra comfort to our patients. Small touches like this make a big difference, and it's reflected in our consistently high patient satisfaction scores.

I'm proud to work alongside a team of incredible, caring individuals who have become my second family. Supporting Mission Partner Giving is my way of investing in something I truly believe in. Generosity is contagious, and when we share it with our coworkers, we amplify its impact.

I am grateful for the opportunity to give back after a fulfilling career at OSF Heart of Mary. My years of service and dedication align with the Mission, Vision, and Values the Sisters have instilled, and I am honored to play a part in continuing their legacy of care.
